Johnson City, TN 37604

Dear Bryan:

This letter is to express our interest in your continued support of the Southside Neighborhood Organization. We believe you have a great deal to offer SNO. Witness the evidence below: half of the current Executive Board members were recruited to the Organization because of your enthusiasm and interest in moving our neighborhood beyond the status quo. Your knowledge of city code is exceptional. Your humor and creativity is perfect. We regret that your role over the last several months has not played to these strengths. We sincerely need them back.

At this time, we hope you plan to continue in your capacity as Zoning Chair and "Yardsale Czar." Doug Buda and Neil Owen have both expressed an interest in continuing to help you with the latter as have some additional volunteers. Please let one of us know if this is not a possibility for you. Otherwise, we look forward to seeing you at the July meeting.
